

Typical Fabric Offerings

General Fabrics	Available Strengths	Maximum Operating Temperature
Polyester Knit	~ 90 psi	325°F/ 163°C
Polyester Woven	150-800 psi	325°F/ 163°C
Polyamide	100-700 psi	300°F/ 149°C

Specialty Fabrics	Available Strengths	Maximum Operating Temperature	Special characteristics
Nomex	150-1000 psi	450°F/ 232°C	High temperature resistance/ High strength
Vectran	3000 psi	Extra High Temperature	Ultra high temperature
Polyamide (Ballistic)	1200 psi	300°F/ 149°C	High strength
Polyamide (wick resistance)	700 psi	300°F/ 149°C	Wick resistance
